Creating the Perfect Wedding Memories

Welcome to the world of Bellissimo, a stimulating range of stylish book bound albums offered by Loxley Colour.

The Bellissimo Range is manufactured at our extensive production facility meaning you will receive the full support you have come to expect from the UK's leading professional laboratory.

The solid and contemporary Acrylic cover.

The Designer Album Jacket cover.

The prints that make up the albums are traditional silver process giving both you and your client complete confidence in the albums durability. The range detailed in this brochure is just a continually growing list of exciting and desirable album options.

Traditionally, book bound albums of this kind could take upwards of six weeks for delivery, with the photographer not knowing the final results of the page layouts. Other designers make decisions for them and often leave the photographer unhappy with the result whereas Bellissimo Albums give you full control over design, finish, layout and delivery of this beautifully hand crafted range of products.

There are many different size options ranging from parents style albums up to 16 x 12 inch books. The number of pages varies from as few as ten on the smaller albums up to 40 on the largest size giving you an impressive 80 sides. With Bellissimo albums you are in full control from outset. Simply choose your cover option, size and format and you are ready to start designing using our prepared templates.

We have made ordering a smaller version of your main album easier than ever. All you have to do is select the relevant size in proportion and the number you require and we will produce them at the same time as your main album without you having to re-design it.

ROES (remote order entry system) provides the perfect solution for ordering your album, ready to pass on to your client with no additional finishing required. ROES is freely downloadable at www.loxleycolour.com and once installed gives you access to a vast array of template files allowing you to create your album with minimum effort.

If you want to use your own design software then no problem, simply import the finished file and drop into the relevant blank ROES template file.

If you use our template files, we will correct each image on every page free of charge if requested. This option ensures you receive complete consistency throughout this valuable product. If you use another designer software then we will provide an overall correction to each page if required.

Bellissimo Albums are available in landscape and upright format, simply choose your preference when ordering in ROES. The cover options are black or ivory, supplied with a free designer book jacket or you can opt for the stylish acrylic cover to give a contemporary twist to your display.

Versatility is the key to Bellissimo Albums allowing you to offer them as wedding albums, portrait albums and even commercial portfolios.

We also believe we provide the quickest production times available in today's market place with turnaround of just seven working days.

Bellissimo Albums.....Unlock your creative side.

Bellissimo Albums are available in several different sizes and page number combinations.

Landscape options are also available.
